PETE LEUM MARKETS. Office of the Monaing Herald, Thusville, Thesday Eve., August 22, 1845.

The rain and consequent mad of to-day has interfred with handing to a great degree, and the comparations but about half the amount of researchy. The plank rold between this place and thin de is last progressing, and that talshed, the mid will in a great massure cetse to be an obstacle to the progening of oil from that locality. Crude at the wells is dely becoming firmer; though from what cause we do not understand, considering the present state of the New York market, unless it is, as we stated a few days since meacount of the hereated timbegs, occasioned by the recent sales. There is but little call for exporting at present, though this must necessarily improve one long. The New York market to

day shows an improvement.

"The defaleation on the Eric Rullroad In the freignal department is reported to be very slight, the orders of the road making no profile report on the subject. Erie stock advance I stightly.

-The multet for perrolemn stocks was firm and a new sites were made at a slight advance. -The Gold market exhibits more strength ander the inflance of foreign exchange and the exports of specie.

We have no changes to note in our price
